

QCDC

Quick Connection Device for Current

Quick Connection Device for Current QCDC 1000 (single-phase version) contains:

- 1 x current cable
- 1 x voltage neutral cable (with same connection as current cable)

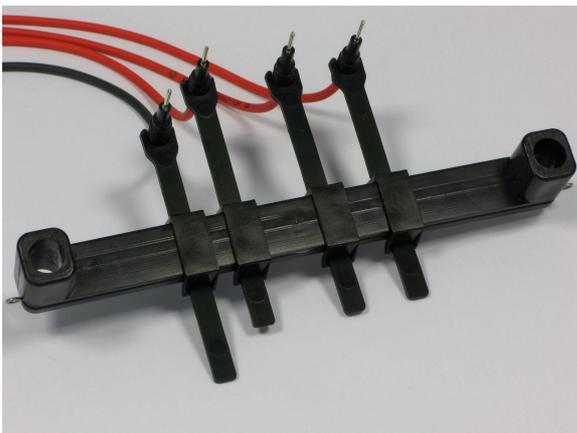

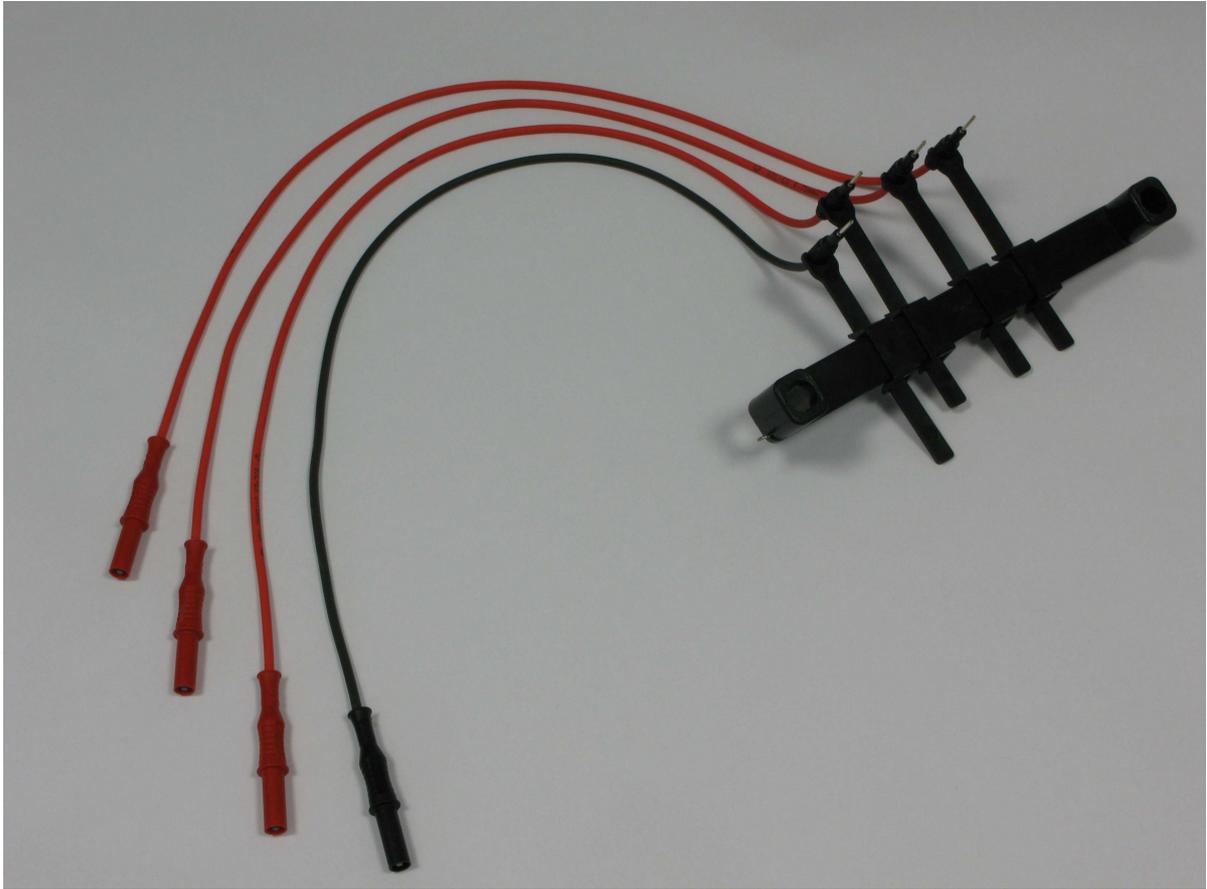

Quick Connection Device for Current QCDC 3000 (three-phase version) contains:

- 3 x current cable
- 1 x voltage neutral cable (with same connection as current cable)

Supply for one bench contains 2 pcs. (QCDC 1000) or 6 pcs. (QCDC 3000) of special cables for connecting first/last meter to bench.

QCDV

Quick Connection Device for Voltage

Quick Connection Device for Voltage QCDV 1000 (single-phase version) contains:

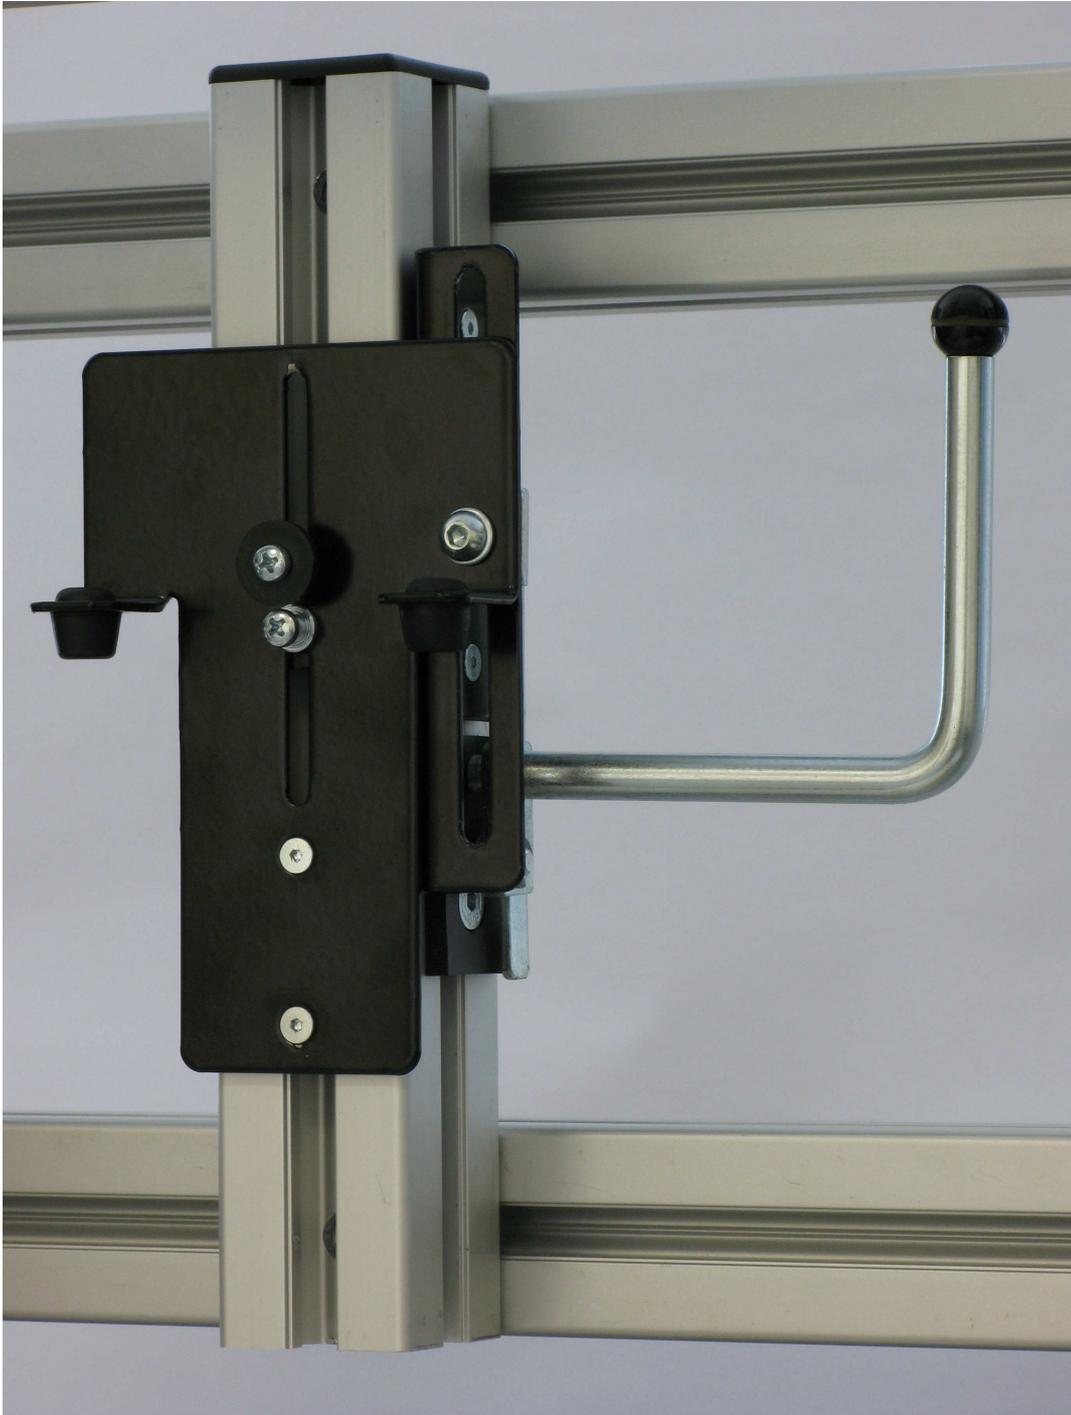

- 1 x red cable
- 1 x black cable

Quick Connection Device for Voltage QCDV 3000 (three-phase version) contains:

- 3 x red cables
- 1 x black cable

QCTF

Quick Connection Top Fixture

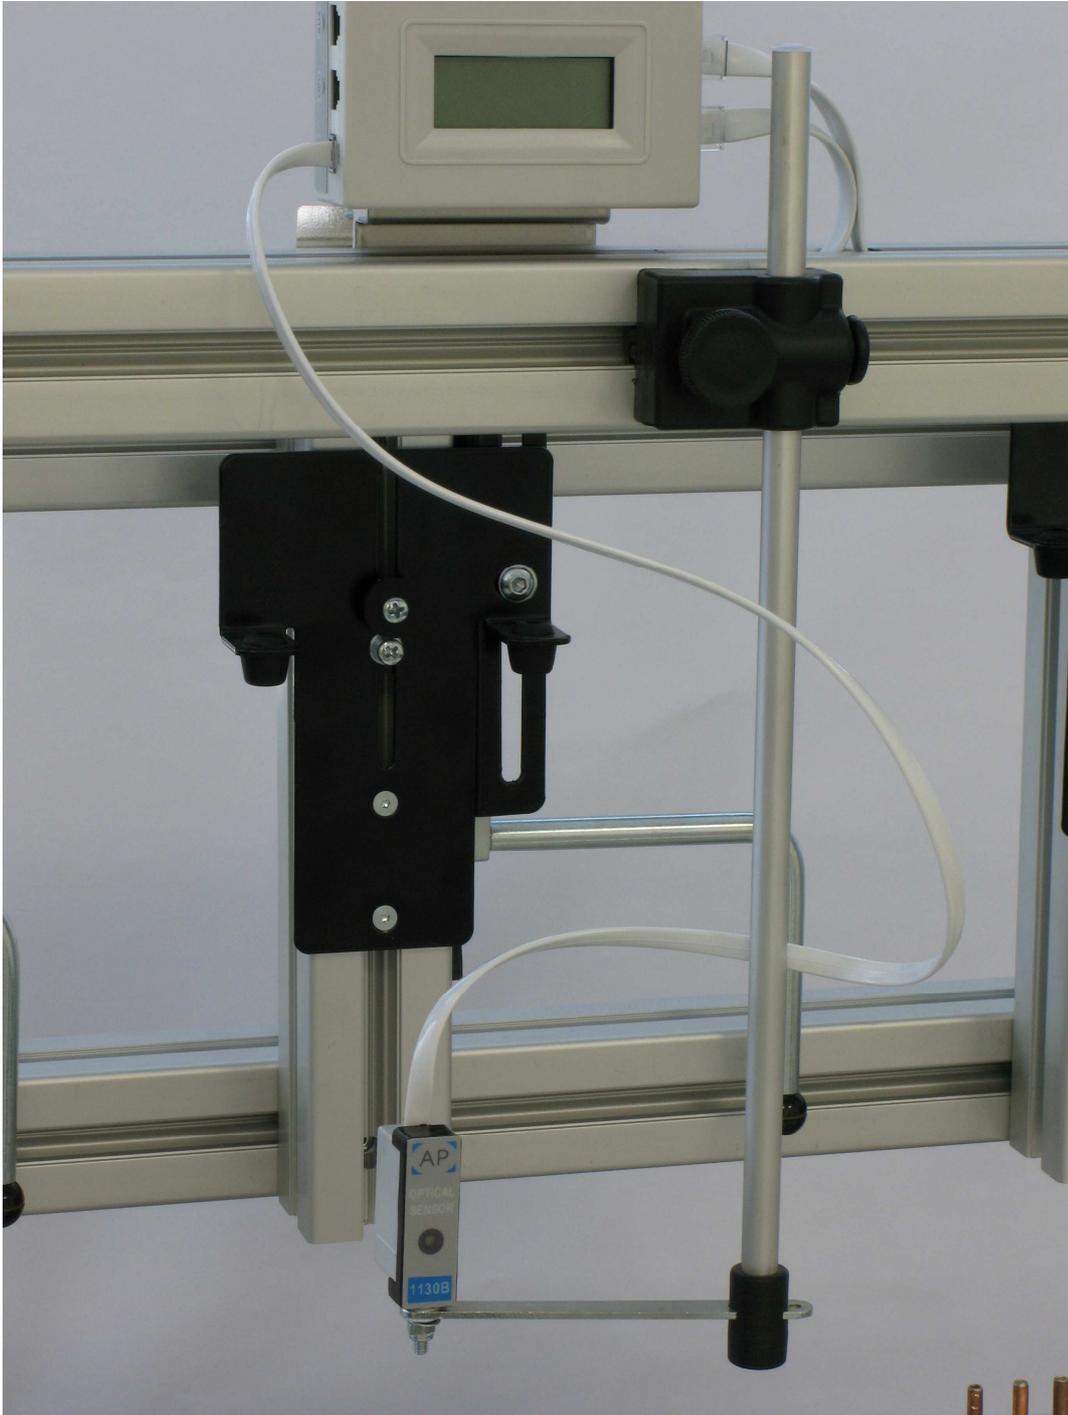

Quick Connection Top Fixture QCTF contains:

- meter fitting mechanism
- vertical Bosch profile holding the mechanism

OPPS

Optical Sensor Positioning System

Optical Sensor Positioning System OPPS contains:

- vertical bar with upper fitting mechanism
- horizontal bar (with hole for fitting Optical Sensor)
